CURSO BÁSICO DE POSTGRADO EN

Endocrinología 2018

8, 9 y 10 de marzo de 2018

Información General

Organiza:
División de Pediatría
Unidad de Endocrinología Pediátrica
Pontificia Universidad Católica de Chile

Director:
Dr. Hernán García

Comité Científico:
Dr. Alejandro Martínez
Dra. Francisca Grob

Dirigido a:
Dirigido a médicos pediatras o internistas con estudios en curso o finalizado recientemente su formación en endocrinología, o que vean pacientes endocrinológicos en su práctica diaria.

Contenidos:

- Hipófisis: Pubertad - hipogonadismo
- Suprarrenal
- Diabetes y obesidad
- Tiroides
- Metabolismo óseo

Expositores Internacionales:

Prof. Constantin Stratakis
Washington, USA

Prof. Ana Claudia Latrónico
Sao Paulo, Brasil

PROGRAMME

DAY 1- MARCH 8

TIMETABLE	TOPIC	PROFESSOR
08:00 - 08:15	Introduction	Dr. Hernán García
SESSION 1: HYPOPHYSIS		
08:15 - 08:45	PLENARY 1 Short stature: Diagnosis approach	Dr. Alejandro Martínez
08:45 - 09:15	PLENARY 2 Study and treatment of pituitary adenomas: State of the art	Dr. Carmen Carrasco
09:15 - 09:30	DISCUSSION Moderator: Dr. Francisco Guarda	Dr. Alejandro Martínez Dr. Carmen Carrasco
09:45 - 10:15	CLINICAL CASE Room A: Multiple Pituitary Hormone Deficiencies Dr. Patricia Lacourt	CLINICAL CASE Room B: Diagnosis and treatment of Growth Hormone Deficiency in Adults. Dr. Flavia Nilo
	Coffee break	
10:45 - 11:15	PLENARY 3 Tall stature in children: Differential diagnosis	Prof. Constantin Stratakis
11:15 - 11:45	PLENARY 4 Acromegaly	Dr. Nelson Wohlk
11:45 - 12:00	DISCUSSION Moderator: Dra. Carmen Carrasco	Prof. Constantin Stratakis Dr. Nelson Wohlk
12:15 - 12:45	CLINICAL CASE Room A: Pubertal delay and galactorrhea Dr. Carolina Mendoza	CLINICAL CASE Room B: MEN1 Dr. Carolina Garfias
	LUNCH	
SESSION 2: PUBERTY - HYPOGONADISM		
15:30 - 16:00	PLENARY 1 Congenital hypogonadotropic hypogonadism-pathogenesis, diagnosis and treatment	Prof. Ana Claudia Latronico
16:00 - 16:30	PLENARY 2 Turner Syndrome. ¿How to improve height?	Dr. Carmen Carrasco
16:30 - 17:00	DISCUSSION Moderator: Dr. Carolina Mendoza	Prof. Ana Claudia Latronico Dr. Hernan Garcia
17:15 - 17:45	CLINICAL CASE Room A: Constitutional delay puberty versus hypogonadism hypogonadotropic. Dr. Paulina Merino	Room B: Update in Klinefelter syndrome Dr. Felipe Valenzuela
	Coffee break	
18:15 - 18:45	PLENARY 3 New pathways in the control of the initiation of puberty	Prof. Ana Claudia Latronico
18:45 - 19:00	DISCUSSION Moderator: Dr. Paulina Merino

DAY 2- MARCH 9

TIMETABLE	TOPIC	PROFESSOR
SESSION 3: ADRENAL		
08:15 – 8:45	PLENARY 1 Genetic aspects of adrenal gland development	Prof. Constantin Stratakis
08:45 – 9:15	PLENARY 2 Primary hyperaldosteronism	Dr. Carlos Fardella
09:15 – 9:30	DISCUSSION Moderator: Dr. René Baudrand	Prof. Constantin Stratakis Dr. Carlos Fardella
09:45 – 10:15	CLINICAL CASE Room A: Congenital adrenal hypoplasia. Dr. Alejandro Martínez	CLINICAL CASE Room B: Cushing syndrome. Dr. Constanza Pinochet
	Coffee break	
10:45 – 11:15	PLENARY 3 Care continuity for patients with congenital adrenal hyperplasia during lifespan	Dr. René Baudrand
11:15 – 11:45	PLENARY 4 Recent advances in biochemical and molecular analysis of congenital adrenal hyperplasia due to 21-hydroxylase deficiency.	BQ. Helena Poggi
11:45 – 12:15	DISCUSSION Moderator: Dr. Alejandro Martínez	Dr. René Baudrand BQ. Helena Poggi
12:30 -13:00	CLINICAL CASE Room A: Approach to the newborn with suspected congenital adrenal hyperplasia. Dr. Alejandro Martinez	CLINICAL CASE Room B: Controversies in non-classical adrenal hyperplasia management. Dr. Claudia Godoy
	LUNCH	
SESSION 4: DIABETES AND OBESITY		
15:30 - 16:00	PLENARY 1 Differential diagnosis of diabetes in adolescent during lifespan	Dr. Francisca Riera
16:00 - 16:30	PLENARY 2 Dyslipidemia management in overweight or obese adolescent	Dr. Sylvia Asenjo
16:30 - 17:00	DISCUSSION Moderator: Karime Rumié	Dr. Francisca Riera Dr. Sylvia Asenjo
17:15- 17:45	CLINICAL CASE Room A: Ketoacidosis management. Dr. Karime Rumié	CLINICAL CASE Room B: New treatment strategies for diabetes. Dr. Bruno Grassi
	Coffee break	
18:15- 18:45	PLENARY 3 Long-term health outcomes in patients with Prader-Willi syndrome.	Dr. Nancy Unanue
18:45- 19:00	DISCUSSION Moderator: Dr. Hernán García	Dr. Nancy Unanue

DAY 3- MARCH 10

TIMETABLE	TOPIC	PROFESSOR
SESSION 5: THYROID		
08:15 – 08:45	PLENARY 1 Screening and follow up of congenital hypothyroidism	Dr. Francisca Grob
08:45 – 09:15	PLENARY 2 Radiological approach to the patient with thyroid nodules	Dr. Francisco Cruz
09:15 – 09:30	DISCUSSION Moderator: Dr. René Baudrand	Dr. Francisca Grob Dr. Francisco Cruz
09:45 – 10:15	CLINICAL CASE Room A: Neonatal hyperthyroidism. Dr. Francisca Grob	CLINICAL CASE Room B: Thyroid cancer patient with negative image and positive thyroglobulin. Dr. JM Domínguez
	Coffee break	
10:15 – 10:45	PLENARY 3 Surgical management of thyroid diseases	Dr. Hernán González
10:45 – 11:15	PLENARY 4 Approach to the hyperthyroid patient	Dr. JM Domínguez
11:15 – 11:45	DISCUSSION Moderator: Dr. Francisca Grob	Dr. Hernán González Dr. JM Domínguez
12:30 -13:00	Room A: Clinical Case: Autonomous thyroid adenoma. Dr. Cristian Seiltgens.	Room B: Clinical Case: Difficult thyroid results. Dr. José Adolfo Rodríguez
	LUNCH	
SESSION 6: BONE METABOLISM		
15:30- 16:00	PLENARY 1 The vitamin D deficiency: Approaches for diagnosis, treatment and prevention.	Dr. Gilberto González
16:00- 16:30	PLENARY 2 Treatment of Osteoporosis to Prevent Fractures in Men and Women.	Dr. Claudia Campusano
16:30- 17:00	DISCUSSION Moderator: Dra. Loreto Reyes	Dr. Claudia Campusano Dr. Gilberto González
17:15- 17:45	CLINICAL CASE Room A: Osteoporosis in Children with Chronic Illnesses: Diagnosis, Monitoring, and Treatment. Dra. Loreto Reyes	CLINICAL CASE Room B: Fracture Prevention in the Osteopenic Environment Dr. Francisco Guarda
	Coffee break	
18:15- 18:45	PLENARY 3 (Cultural conference) Inmolaciones de infantes en un templete descubierto recientemente en el Desierto de Atacama (800 años AC)	Dr. Lautaro Nuñez
18:45- 19:00	Close	Dr. Hernan García
